- d. The Chairman of the Board shall have the power to administer an oath to witnesses prior to their testifying before the board on any issue.

**430 Conditional Use Permits**

The Board shall have the power to hear and decide applications for conditional use permits to allow the proper integration into the community of uses which are specifically named in the Zoning Ordinance which may be suitable only in specific locations in the district only if certain conditions are met.

- a. The Board may approve, modify or deny any application for a conditional use permit. Before granting any such permits, the Board are required to consider the comments of all adjoining property owners. If it approves such permit it may attach necessary conditions such as time limitations, requirements that one or more things be done before the request can be initiated, or conditions of a continuing nature. Any such conditions shall be recorded in the Board's minutes and on the conditional use permit, along with a reference to the specific section in the Zoning Ordinance listing the conditional use under consideration. The Board shall have power to revoke conditional use permits, or variances for noncompliance with the condition thereof. Furthermore, the Board shall have a right of action to compel offending structures or uses removed at the cost of the violator and may have judgment in person for such cost.
- b. Granting of a conditional use permit does not exempt the applicant from complying with all of the requirements of building, housing and other regulations.

- c. In any case where a conditional use permit has not been exercised within the time limit set by the Board, or within one year, if no specific time limit has been set, such conditional use permit shall not revert to its original designation unless there has been a public hearing. Exercised, as set forth in this section, shall mean that binding contracts for the construction of the main building or other improvement has been let; or in the absence of contracts that the main building or other improvement is under construction to a substantial degree, or that prerequisite conditions involving substantial investment shall be under contract, in development, or completed. When construction is not a part of the use, exercised shall mean that the use is in operation in compliance with the conditions as set forth in the permit.
- d. The Administrative/Enforcement Officer shall review all conditional use permits, except those for which all conditions have been permanently satisfied, at least once annually and shall have the power to inspect the land or structure where the conditional use is located in order to ascertain that the landowner is complying with all of the conditions which are listed on the conditional use permit. If the landowner is not complying with all of the conditions which are listed on the conditional use permit, the Administrative/Enforcement Officer shall state conditions on the conditional use permit, and copy of the report shall be furnished to the landowner at the same time that it is furnished to the Chairman of the Board. If the Board finds that the facts alleged in the report of the Administrative/Enforcement Officer are true and that the landowner has taken no steps to comply with them between the date of the report and the date of the hearing, the Board may authorize the Administrative/Enforcement Officer to revoke the conditional use permit and take the necessary legal action to cause the termination of the activity on the land which the conditional use permit authorizes.
- e. Once the Board has completed a conditional use permit and all the conditions required are of such type that they can be completely and permanently satisfied, the Administrative/Enforcement Officer upon request of the applicant, may, if the facts warrant, make a determination that the conditions have been satisfied, and enter the facts which indicate that the conditions have been satisfied and the conclusion in the margin of the copy of the conditional use permit which is on file with the County Clerk, as required in KRS 100.237. Thereafter said use, if it continues to meet the other requirements of the regulations, will be treated as a permitted use.

#### 440 Dimensional Variance

The Board shall have the power to hear and decide on applications for dimensional variances where, by reason of the exceptional narrowness, shallowness, or unusual shape of a site on the effective date of this Ordinance or by reason of exceptional topographic conditions, or some other extraordinary situation or condition of that site, the literal enforcement of the dimensional requirements (height or width of building or size of yards, but not population density) of this Ordinance would deprive the applicant of reasonable capacity to make use of the land in a manner equivalent to the use permitted other landowners in the same district. The Board may impose any reasonable conditions or restrictions on any variance it decides to grant.

Before any variance is granted, the Board must find all of the following, which shall be recorded along with any imposed conditions or restrictions in its minutes and records and issued in written form to the applicant to constitute proof of the dimensional variance.

- a. The specific conditions in detail which are unique to the applicant's land and which do not exist on other land in the same zone.

- b. The manner in which the strict application of the provisions of the Ordinance would deprive the applicant of a reasonable use of the land in the manner equivalent to the use permitted other landowners in the same zone.
- c. That the unique conditions and circumstances are not the result of actions of the applicant taken subsequent to the adoption of the Ordinance.
- d. Reasons that the variance will preserve, not harm, the public safety and welfare and will not alter the essential character of the neighborhood.
- e. Consideration of all adjoining property owner's comments regarding the variance request.

The Board shall not possess the power to grant a variance to permit a use of any land, building, or structure which is not permitted by the Ordinance in the district in question, or to alter density requirements in the district in question.

A dimensional variance applies to the property for which it is granted, and not to the individual who applied for it. A variance also runs with the land and is transferable to any future owner of the land, but it cannot be transferred by the applicant to a different site.

**450 Recording of Variances and Conditional Use Permits**

All variances and conditional use permits approved by the Board of Adjustment shall be recorded at the expense of the applicant in the Office of the County Court Clerk.

**460 Existing Nonconforming Use, Continuance, Change**

The lawful use of a building or premises, existing at the time of the adoption of the Zoning Ordinance affecting it may be continued, although such use does not conform to the provisions of such regulation, except as otherwise provided herein (See Article V for details).

The Board of Adjustment shall not allow the enlargement or extension of a nonconforming use beyond the scope and area of its operation at the time the Ordinance, which makes its use nonconforming, was adopted. Nor shall the Board permit a change from one nonconforming use to any other nonconforming use.

**470 Administrative Review**

The Board shall have the power to hear and decide cases where it is alleged by an applicant that there is error in any order, requirement, decision, grant, or refusal made by the Administrative/Enforcement Official in the enforcement of this Ordinance. A request for review shall be taken within thirty days after the applicant or his agent receives notice of the action alleged to be in error.

**480 Procedure for All Appeals to Board**

Appeals to the Board may be taken by any person, or entity claiming to be injuriously affected or aggrieved by an official action or decision of any officer enforcing this Ordinance. Such appeal shall be taken within thirty days after the appellant or his agent receives notice of the action appealed from by filing with said officer and with the appropriate Board a notice of appeal specifying the grounds thereof, and giving notice of such appeal to any and all parties of record. Said officer shall forthwith transmit to the Board all papers constituting the record upon which the action appealed from was taken and shall be treated as and be the respondent in such further proceedings. At any hearing by the Board any interested person may appear and enter his appearance, and all shall be given opportunity to be heard.

The Board shall fix a reasonable time for hearing the appeal and give public notice in accordance with KRS Chapter 424, as well as written notice to the appellant and the Administrative/Enforcement Official at least one week prior to the hearing, and shall decide it within sixty days. The affected party may appear at the hearing in person or by attorney.

Any person or entity claiming to be injured or aggrieved by any final action of the Planning Commission or Board of Adjustments may appeal from the action to the circuit court of the county in which the land lies.

All appeals shall be taken in the circuit court within thirty days after the action or decision of the Planning Commission or Board of Adjustment and all decisions which have not been appealed within thirty days shall become final. After the appeal is taken the procedure shall be governed by the rules of civil procedure. When an appeal has been filed, the Clerk of the Circuit Court shall issue a summons to all parties, including the Planning Commission in all cases, and shall cause it to be delivered for service as in any other law action.

**ARTICLE V**  
**NONCONFORMING LOTS, STRUCTURES, AND USES**

**500 Intent**

It is the intent of this ordinance to permit nonconforming lots, structures, and/or uses to continue until they are removed, but not to encourage their survival. It is further the intent of this ordinance that nonconformities shall not be enlarged upon, expanded, extended, or be used as grounds for adding structures or uses prohibited elsewhere in the same district.

**510 Nonconforming Lots of Record**

In any district in which single-family dwellings are permitted, a single-family dwelling and permitted accessory uses, including manufactured and certified mobile homes as permitted in Article IX, may be erected on any single lot of record at the effective date of adoption or amendment of this ordinance. Such lot must be in separate ownership and not of continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area and width or both that are generally applicable in the district, provided that yard dimensions and requirements other than those applying to area or width or both of the lot shall conform to the regulations for the district in which such lot is located. Variance of yard requirements shall be obtained only through action of the Board of Adjustment.

**520 Nonconforming Uses of Land and Structures**

Where, at the time of passage of this ordinance, the lawful use of a building or premises exists which would not be permitted by the regulations imposed by this ordinance, the use may be continued so long as it remains otherwise legal with the following limitations:

- a. A non-conforming use shall not be extended, enlarged or moved to occupy any portion of land or structure except in conformity with this Ordinance.
- b. A non-conforming use shall not be re-established after discontinuation for a period of one year. Vacating of premises or building or nonoperative status shall be evidence of a discontinued use.
- c. A non-conforming structure damaged to an extent greater than fifty (50) percent of the current replacement value may be repaired and restored only to a structure and use conforming to the provisions of the Ordinance; provided, however, that a nonconforming residential structure may be rebuilt in the same general yard area if such damage is due to fire or natural causes and if rebuilt within 12 months of the date of damage. Manufactured and certified mobile homes are only placed on lots in conformance with Article IX. Restoring to a safe condition of any structure declared to be unsafe by any public official shall not be prohibited by this regulation.
- d. All non-conforming uses shall be changed only to a conforming uses; provided, however, that dimensional variances may be granted.

- e. An owner claiming a continuing non-conforming use shall bear the burden of showing that said use was in existence as of the effective date of this ordinance and has not been discontinued for a period of one (1) year since said effective date. An owner may register a continuing non-conforming use with the Administrative/Enforcement Officer within twelve (12) months of the adoption of this ordinance to establish that said use was in existence as of the effective date of this ordinance.

**530 Nonconforming Structures**

Where a lawful structure exists at the effective date of adoption or amendment of this ordinance that could not be built under the terms of this ordinance by reason of restrictions on area, lot coverage, height, yards, its location on the lot, or other requirements concerning the structure, such structure may continue so long as it remains otherwise lawful.

Any proposed addition or substantial remodeling of a nonconforming structure may be granted after public hearing as a dimensional variance by the appropriate Board of Adjustment. The Board must first determine that the proposed addition or substantial remodeling will not facilitate or expand a nonconforming use before such variance can be granted.

**540 Ordinary Repair and Maintenance**

Work may be done on ordinary repair and maintenance, or on repair or replacement of non-load-bearing walls, fixtures, wiring, or plumbing. Nothing in this ordinance shall be deemed to prevent the strengthening or restoring to a safe condition a building or other structure in accordance with the order of an appropriate public agency which declares such building or other structure to be unsafe and orders its restoration to a safe condition.

**ARTICLE VI

**1030 Off-Street Loading and Unloading Space Regulations for Trucks**

All buildings and uses which generate regular trucking traffic shall be provided with sufficient off-street loading and unloading space on the premises so that they will generate no loading or unloading activity on their required parking spaces or on any street. The Board of Adjustment shall interpret the amount of loading and unloading space required for any building or use whenever the Administrative/Enforcement Officer is unable to apply this standard literally and applies to the Board for an original interpretation.

**1040 Additional Parking, Loading, and Unloading Regulations**

- A. Arrangement of off-street parking space: Off-street parking space required for any building or use may be located within walking distance or four hundred feet from the premises it serves but detached therefrom and may be consolidated into a large parking area serving other buildings and uses if approved by the Board of Adjustment. The Administrative/Enforcement Officer shall apply to the Board for an original interpretation when building permits are requested in such cases. The Board may not authorize the total amount of parking space required for all buildings and uses to be diminished except as follows: If a consolidated parking area serves buildings or uses which do not generate automobile parking at the same times -i.e.: Churches and stores, - total parking space may be diminished to the maximum required by those buildings and uses which do generate the parking of automobiles at the same time.
- B. Proof of availability: The Board of Adjustment may require a plat, deed, and any other proof necessary to show that required parking space, if located off the premises it serves, is controlled by and available to the applicant for a building permit.
- C. Surfacing of parking, loading, and unloading spaces: Parking, loading, and unloading spaces and the access thereto shall be surfaced in a manner adequate to eliminate dust and mud.

## ARTICLE XII PLANNED UNIT DEVELOPMENTS

### 1200 General

A Planned Unit Development project which may depart from the literal conformance with the regulations for individual-lot development may be permitted in those districts where it is designated as a special use under the district regulations. All Planned Unit Development projects shall be subject to the following regulations:

### 1210 Procedure

When a Planned Unit Development project is proposed, the procedure and standards for major subdivision approval as set forth in the Subdivision Regulations shall be followed in their entirety. A preliminary plat and final plat, both approved by the Planning Commission shall be required for every Planned Unit Development project. The Planning Commission may establish a schedule of reasonable fees to be charged for plat review. The project shall be developed according to the approved final plat. Building permits and certificates of occupancy shall be required for each building.

### 1220 Uses

The uses of premises in a Planned Unit Development project shall conform with the permitted uses of the district in which it is located when it is permitted as a special use. If a Planned Unit Development project is proposed which includes mixed uses or other uses that are not permitted in the district where it is proposed or uses not permitted in any district, the project may be permitted only after an overlay to the City Zoning Map designating the proposed location as a Planned Unit Development district is approved by the Planning Commission. The overlay district may be permitted only after the conditional approval of the preliminary plat and shall be valid only for that project as approved.

### 1230 Standards

In any Planned Unit Development project, although it is permissible to depart from literal conformance with the individual-lot dimension and area regulations, there shall be no diminution of the total equivalent lot area, parking area, and loading and unloading area requirements that would be necessary for the equivalent amount of individual-lot development. The Planning Commission may allow reductions in these requirements however, upon proof by the developer that efficiencies of large-scale development may permit such reductions without destroying the intent of this Ordinance.

### 1240 Special Conditions

The Planning Commission shall attach reasonable special conditions to insure that there shall be no departure from the intent of this Ordinance. The Planned Unit Development project shall conform with all such conditions. Because a Planned Unit Development project is inherently more complex than individual-lot development and because each such project must be tailored to the topography and neighboring uses, the standards for such projects cannot be inflexible.

The following standards define the typical special conditions the Planning Commission shall attach in addition to the standards for lot, parking, and loading and unloading area defined in Section 1230 above. The Planning Commission may also attach any other reasonable special conditions.

- (a) It is desirable that access points to all arterial streets shall be located no more frequently than once every eighth to a quarter of a mile. The Planning Commission may approve the platting of temporary access points.
- (b) Wherever there is an abrupt change in uses - i.e., residential to commercial - it is desirable that a buffer area of open space or protective planting be placed between them which will protect each use from the undesirable effects of the other.
- (c) Parking and other public areas used at night shall be adequately lighted, and private areas shall be adequately protected from such lighting and any other lighting from public areas. Public streets may also require protection from excessive glare of lighted areas.
- (d) It is desirable that all Planned Unit Development projects be constructed promptly after approval of the final plat. Construction shall be initiated within one year after approval of the final plat, and shall be completed in a reasonable length of time. Failure to initiate construction within one year shall void the permit.

## ARTICLE XIII DEVELOPMENT PLANS

### 1300 General

This section sets forth the content and procedure for submission, review, and approval of all development plans called for by the Planning Commission.

The Commission at its discretion may require the submission and approval of a preliminary and/or a final development plan if the Commission finds there are existing or potential substantial flood, drainage, traffic, topographic, or other similar problems relating to the development of the subject property that could have an adverse effect on existing or future development of the subject property in the vicinity.

### 1310 Preliminary Development Plans Required

Preliminary development plans shall be submitted after requested by the Commission and contain all information required by Section 1330 below. A public hearing on a map amendment shall not be held until the required preliminary development plan has been submitted to the Commission. - (h) Location and dimensions of other existing or proposed easements

**1350 Approval of Development Plan Before Building Permit**

When the Planning Commission has required a Development Plan to be submitted no building permit shall be issued until a development plan is approved by the Commission and a copy of said plan is certified by the Chairman and Secretary of the Commission. The approval of a development plan shall limit and control the issuance of all building and occupancy permits, and restrict the construction, location and use of all land and structures to the conditions set forth in the plan.

**1360 Amendments to Development Plan**

Amendments to approved development plans can be made only by official Planning Commission action.

## ARTICLE XIV AMENDMENTS

### 1400 General

Whenever the public necessity, convenience, general welfare, or good zoning practices require, the legislative body may, by ordinance, after receiving a recommendation thereon from the Planning Commission, and subject to procedures by law, amend, supplement, change or repeal the regulations, restrictions, and boundaries or classification of property.

### 1410 Application for Amendment

A proposal for amendment to the Official Zoning Map may originate with the Planning Commission, the City Council, any other government body, the owner of the subject property, or by a person having written authorization from the owner of the subject property. A proposal for amendment to the text of this ordinance may originate with any person or governmental body. Regardless of the origin of the proposed amendment an application must be filed with the Planning Commission requesting the proposed amendment in such form and accompanied by such information as required by this ordinance and the Planning Commission. The Planning Commission will require the prior submission of a development plan prepared in accordance with Article XIII of this Ordinance, which when approved by the Commission, shall be followed. At the time of filing an application, a non-returnable filing fee shall be paid according to the schedule of fees; however, there shall be no filing fee for an amendment requested by the City Council, the planning commission or any governmental agency. Upon the filing of an application for a map amendment by a governmental body, the Planning Commission shall promptly notify the owner of the subject property by registered mail or certified mail, receipt requested.

### 1420 Planning Commission Procedure

Upon the filing of an application for an amendment to the Official Zoning Map or the text of this ordinance, the Planning Commission shall study and review the application as provided in this ordinance and the bylaws of the Planning Commission.

The Planning Commission shall then hold at least one (1) public hearing after notice as required by KRS 424 and KRS 100 and shall make findings of fact and a recommendation for approval or disapproval of the proposed amendment to the various legislative bodies involved. A tie vote shall be subject to further consideration by the Planning Commission for a period not to exceed thirty (30) days, at the end of which if the tie has not been broken, the application shall be forwarded to the or legislative body without a recommendation for approval or disapproval.

### 1430 Notice of Public Hearing

Notice of the time, place and reason for the required public hearing shall be given by one publication in the newspaper of general circulation in the County, not earlier than twenty-one (21) days or later than seven (7) days before the public hearing in accordance with KRS 424.130 and KRS 100.211.

Any published notice shall include the street address of the property in question, or if one is not available or practicable due to the number of addresses involved, a geographic description sufficient to locate and identify the property, and the names of two (2) streets on either side of the property which intersect the street on which the property is located; and when the property in question is located at the intersection of two (2) streets, the notice shall designate the intersection by name of both streets rather than name two (2) streets on either side of the property.

When a hearing is scheduled on a proposal by a property owner to amend any zoning map, the following notice shall be given in addition to any other notice required by statute, local regulation or ordinance:

- A. Notice of the hearing shall be posted conspicuously on the property the classification of which is proposed to be changed for fourteen (14) consecutive days immediately prior to the hearing. Posting shall be as follows:
  - i. The sign shall state "zoning change" and the proposed classification change in letters three (3) inches in height. The time, place and date of hearing shall be in letters at least one (1) inch in height; and
  - ii. the sign shall be constructed of durable material and shall state the telephone number of the Planning Commission Office; and
  - iii. it shall be the responsibility of the applicant to post the sign conspicuously on the property. The Enforcement Officer shall verify to the Planning Commission at the hearing that placement occurred pursuant to the provisions of this ordinance.
- B. Notice of the hearing shall be given at least fourteen (14) days in advance of the hearing by first class mail, with certification by the commission secretary or other officer of the planning commission that the notice was mailed to an owner of every parcel of property adjoining the property the classification of which is proposed to be changed. It shall be the duty of the person or persons proposing the map amendment to furnish to the planning commission the names and addresses of the owners of all adjoining property. Records maintained by the Property Valuation Administrator may be relied upon conclusively to determine the identity and address of said owner. In the event such property is in condominium or cooperative forms of ownership, then the person notified by mail shall be the president or chairman of the owner group which administers property commonly owned by the condominium or cooperative owners. A joint notice may be mailed to two (2) or more co-owners of an adjoining property who are listed in the Property Valuation Administrator's records as having the same address.

In addition to the public notice requirements of this section, when the planning commission or legislative body of any planning unit originates a proposal to amend the zoning map of that unit, notice of the public hearing shall be given at least thirty (30) days in advance of the hearing by first class mail to an owner of every parcel of property the classification of which is proposed to be changed. Records by the Property Valuation Administrator may be relied upon to determine the identity and address of said owner.

#### 1440 Public Hearing on Application

After notice of the public hearing as provided for above, the Planning Commission shall hold a public hearing on the proposed amendment.

**1450 Recommendation of Commission for Zoning Map Amendment**

Before recommending to the City Council that an application for amendment to the Zoning Map be granted, the Planning Commission, or the legislative body must find that the map amendment is in agreement with the community's Comprehensive Plan, or in the absence of such a finding, that:

- (1) the original zoning classification given to the property was inappropriate or improper, and that the proposed classification is proper, or
- (2) that there have been major changes of an economic, physical or social nature within the area involved which were not anticipated in the Comprehensive Plan adopted by the Planning Commission and which have substantially altered the basic character of the area.

After voting to recommend that an application for amendment to the Official Zoning Map be granted or denied, the Planning Commission shall forward its findings of fact and recommendation in writing to the City Council, if the subject property is within the territorial jurisdiction of the City at the time the Planning Commission's recommendation is made thereon.

**1460 Action by City Council on Zoning Map Amendments**

The City Council shall not act upon a proposed amendment to the Official Zoning Map until it has received the written findings of fact and recommendation thereon from the Planning Commission. The Planning Commission recommendation relating to the proposed amendment shall become final and the map amendment shall be automatically implemented subject to the provisions of KRS 100.347, as set forth in the Planning Commission recommendations, unless within twenty-one (21) days after the final action by the planning commission:

- A. Any aggrieved person files a written request with the Planning Commission that the final decision shall be made by the appropriate legislative body; or
- B. The appropriate legislative body files a notice with the Planning Commission that the legislative body shall decide the map amendment.

It shall take a majority of the entire legislative body to override the recommendation of the Planning Commission and it shall take a majority of the entire legislative body to adopt a zoning map amendment whenever the Planning Commission forwards the application to the legislative body without a recommendation of approval or disapproval due to a tie vote. Unless a majority of the entire legislative body votes to override the Planning Commission's recommendation, such recommendation shall become final and effective and if a recommendation of approval was made by the Planning Commission, the ordinance of the legislative body adopting the zoning map amendment shall be deemed to have passed by operation of law.

If the legislative body chooses to decide the map amendment, the legislative body shall take final action upon a proposed zoning map amendment within ninety (90) days of the date upon which the Planning Commission takes its final action upon such proposal. The legislative body shall also notify the Enforcement Officer and the Chairman of the Planning Commission as to when the proposed map amendment will be heard by the legislative body prior to the legislative body's final action. The legislative body shall complete and file for recording with the County Clerk, a Certificate of Land Use Restriction for any map amendment approved with conditions by the City Council and/or legislative body.

**1470 Recommendation of Commission for Text Amendment**

After voting to recommend that an application for amendment to the text of this ordinance be granted or denied, the Planning Commission shall forward its recommendation in writing to the City Council. In the case of a proposed amendment originating with a legislative body, the planning commission shall make its recommendation within sixty (60) days of the date of its receipt of the proposed amendment.

**1480 Action by City Council on Text Amendments**

The City Council shall not act upon a proposed amendment to the text of this ordinance until it shall have received the written recommendation thereon from the Planning Commission. If the proposed amendment originated with the Planning Commission, it shall take a majority of the entire City Council to override the recommendation of the Planning Commission. If the proposed amendment originated with a legislative body, it shall take an affirmative vote of the majority of the legislative body to adopt the proposed amendment. The legislative body shall take final action within ninety (90) days of the date upon which the planning commission takes its final action upon such proposal.

**1490 Special Conditions to the Granting of Zoning Changes**

As a condition to the granting of any zoning change, the Planning Commission shall require the submission of a development plan as per Article XIII which, where agreed upon, shall be followed. As a further condition to the granting of a zoning change, the planning unit may require that substantial construction be initiated within two years; provided that such zoning change shall not revert to its original designation unless there has been a public hearing.
